

# CHAPTER 1

## CAREER OPTIONS

*“A painting is created stroke by stroke*

*A building is build brick by brick*

*A song is compose note by note*

*And carrier of a person evolve choice by choice”*

As soon as students pass out 10<sup>th</sup> class, they are curious about choosing their career option. Actually, a lot of options is in front of them but they have to choose one of them like engineering, medical, hotel management, generalist and many more.

Now let us talk particularly about two fields of career. Medical and engineering, undoubted nearly 80%, Students opted for science after in their high school. As soon as they pass their 12<sup>th</sup> examination they start looking for their medical and engineering preparation and they engage in it for a minimum of one year and maximum (average) three years while some start to prepare right after 10<sup>th</sup> class.

### **COMPETITIVE EXAM AND ACADEMICS**

Now thing is that students are in a great dilemma whether they have to start their preparation for competitive exams simultaneously with 11<sup>th</sup> class or separately after completing 12<sup>th</sup> safely.

Do many questions arise in the mind of students like which class is better to start preparing for competitive exams (IIT/AIIMS)? Which is the right tutor for coaching?

Moving towards the solution of such query the day when you determine and aware of your aim immediately starts working on it and starts dreaming about it and figure out the complete theme of it in your mind.

Actually in 11<sup>th</sup> and 12<sup>th</sup>, you must not totally focus only on competitive exams. Instead of totally focusing on competitive exams you must prepare well for academics also. You must go through deep study of books, the line to line, and word to word thoroughly. In these two years (11<sup>th</sup> and 12<sup>th</sup>) basics of each subject like physics, chemistry, mathematics for engineering aspirants and biology for medical students.

Now times comes where you judge yourself by seeing the 12<sup>th</sup> mark sheet which acts as a mirror to your talent. I also believe that there are some exceptional cases where one has below 75% in 12<sup>th</sup> but clear IIT

## *THE MELANGE OF SUCCESS*

exam (JEE ADVANCE) undoubted if you deserve yourself and having confidence faith determination on yourself than definitely go for preparation of medical/engineering irrespective of your 12th percentage.

One thing, start preparation after 12 and at least for one year is a good decision of student because at this platform student is free from academics, school classes, and activity. He/she can fully concentrate on his/her competitive examination. If a student joins any institute in the 11th and 12th then there will be the extra expenditure of money apart from this student got in dilemma whether to go for a competitive or academic book. But if you are a hard worker you can manage both.

### **EVERY YEAR GET NEW EXPERIENCE**

Sometime student considers one year as waste when they had prepared but unable to crack the exam. Just remember the year in which you are preparing is not considered as wastage of time. Definitely, it will be one year's experience of your life which you cannot get by other means. So it is better to drop for at least one year and focus on competitive exams. Yes if you are economically strong then prefer the big institute from the class of 11th and 12th onwards.

Student enquired and search about the institute and select which they prefer. Ultimately there are thousands of institutes for medical and engineering classes. It doesn't matter a lot about the city and institute. The matter is about you and your concentration, willingness, adoption in the environment.

In a particular area, city, institution if the student is able to adapt himself then he will feel comfort in study. Because the environment plays a vital role, so Kota is the best place to study and prepare for engineering and medical exams. While selecting institute you must visit at least 4 to 5 different institutes enquired about their faculty, doubt time, facilities, fees any discount if possible. After getting satisfied with these points than join the institute.

Actually, in Kota (Rajasthan) you will find great world level institutes like ALLEN, Resonance, Vibrant, etc. Where faculty have fathomless Knowledge who enlighten the students. Most of the time you find toppers of IIT/AIIMS get selected from institutes of Kota, so it might be possible that you may get the chance to study with such brilliant students.

Apart from front academics you also get to know different cultures and diversity of India by meeting with the students of different states or you can say students of each and every corner of India. Kota is also a crimeless, peaceful and safe city for students.
